

MUHAMMAD IMMAD SHAHZAD

Full Stack Developer | Machine Learning Intern

Lahore, Pakistan | +92-330-4344535 | immadshahzad216@gmail.com

GitHub: <https://github.com/Immad-khan12> | LinkedIn: <https://linkedin.com/in/immad-shahzad-010511347>

Portfolio: <https://sparkling-puffpuff-b9556a.netlify.app>

PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science student (6th Semester, CGPA 3.46/4.00) with hands-on experience building and deploying 3 live full-stack web applications using React.js, FastAPI, Django, and MongoDB/MySQL. Internship experience across full-stack development, machine learning, enterprise AI (SAP Joule at Coca-Cola Icecek), and software testing/QA. Skilled in REST API development, JWT authentication, real-time systems (WebSockets, CRDT), CI/CD, and cloud deployment (Netlify, Render, Vercel).

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, C++, C#, Java, SQL, HTML5, CSS3

Frontend: React.js, JSX, Tailwind CSS, Bootstrap, Framer Motion, HTML5 Canvas, AJAX, Responsive Web Design

Backend: FastAPI, Django, Django REST Framework, Laravel, Node.js, REST APIs, JWT, WebSockets, Socket.io

Databases: MongoDB (Atlas), MySQL, SQLite, PyMongo, Django ORM

AI / ML / Algorithms: Machine Learning fundamentals, Computer Vision concepts (object detection, NMS, IoU), Matplotlib, Dijkstra, Prim's MST, Generative AI Fluency (Anthropic), SAP Joule (enterprise AI)

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, MVC Architecture, RESTful API Design, Authentication & Authorization (JWT, Role-Based Access Control), Database Design, CRUD Operations, SEO

Networking: TCP/IP, HTTP, Client-Server Architecture, Session Management, CORS

Testing & Security: Functional & Integration Testing, Bug Reporting, Frontend Debugging, CSRF/XSS/SQL Injection Prevention, Swagger/OpenAPI

Tools & Cloud: Git, GitHub, CI/CD, Netlify, Render, Vercel, XAMPP, Tkinter, SAP (enterprise modules)

Professional Skills: Technical Presentation, Research, Mentoring, Team Collaboration, Problem Solving

WORK EXPERIENCE

Software Development Intern — Raheem Solutions Pvt. Ltd.

Sep 2026 – Present

Lahore, Pakistan

- Performing functional and integration testing on the bepal.ai web platform, focusing on frontend behavior; identified 10–15 bugs related to page reload and documented them for the development team.
- Working on fixes to restore expected page-reload behavior, refining functionality based on test findings, and piloting improvements; progressing toward backend development tasks.

Digital Technology Intern — Coca-Cola Icecek (CCI)

Aug 3, 2026 – Sep 12, 2026

Head Office, Gulberg, Lahore (Onsite) | 6-Week Internship, Digital Technology Department

- Worked on SAP Joule, SAP's AI copilot, studying how AI-powered capabilities reshape enterprise workflows across manufacturing, procurement, and supply chain.
- Worked hands-on with three SAP Joule use cases: Machine Performance Deviation Advisor, Procurement Command Center, and Limited-Stock Exception Management.
- Researched CCI's business modules and how SAP integrates across the enterprise; delivered presentations on findings and use cases.

Machine Learning Intern — flyrank.ai

Jul 2026 – Present

Remote | 12-Week Internship Program

- Studying core AI/ML model concepts, data processing, and model development as part of a structured 12-week applied ML program.
- Completing hands-on assignments and learning to train machine learning models, applying them alongside full-stack development skills.

Full Stack Web Developer Intern — Teyzix Core

Apr 2026 – May 2026

Lahore, Pakistan (Remote) | Ref: TC-INT-20260430-125

- Built and deployed the TEYZIX CORE Portal, an internship management platform (React.js, FastAPI, MongoDB Atlas) with JWT-secured REST APIs and an admin dashboard.
- Configured CI/CD pipelines (GitHub to Netlify/Render), resolved production CORS issues, and managed staging/production environment variables.
- Delivered 3 full-stack applications in 2 months (TEYZIX CORE Portal, Royal Feast, and SyncSpace as the capstone), all deployed live on Netlify, Render, and Vercel.

PROJECTS

SyncSpace — Real-Time Collaborative Document Editor		2026
CRDT-powered live sync, real-time presence tracking, role-based access, and version history. Tech: React.js, WebSockets, CRDT, Vercel.		
Links: Live: https://syncspace-ivory.vercel.app GitHub: https://github.com/Immad-khan12/syncspace		
TEYZIX CORE Portal — Internship Management Platform		2026
JWT authentication, admin dashboard, search/filter listings, and Swagger API docs; frontend on Netlify, API on Render. Tech: React.js, FastAPI, MongoDB Atlas.		
Links: Live: https://teyzix-core-portal.netlify.app GitHub: https://github.com/Immad-khan12/Teyzix-core-portal		
Jarvis — Agentic AI Assistant		2026 – In Progress
Agentic AI assistant currently under active development.		
Links: GitHub: https://github.com/Immad-khan12/Jarvis-Agentic-Assistant		
Royal Feast — Restaurant Ordering System		2026
Menu browsing, cart, order placement, and role-based authentication. Tech: React.js, Django REST Framework, MySQL, Netlify.		
Links: Live: https://teal-madeleine-c107e5.netlify.app GitHub: https://github.com/Immad-khan12/Royal-Feast		
AutoDetect CV — Car Detection System (Computer Vision Simulation)		2026
Browser-based simulation of an object detection pipeline covering 5 object classes, with bounding boxes, confidence scoring, Non-Maximum Suppression, IoU, precision/recall metrics, and a detection heatmap. Tech: JavaScript, HTML5 Canvas, CSS3.		
Links: GitHub: https://github.com/Immad-khan12/Car-Detection-System		
Additional Projects		
- Fire Truck Emergency Routing (Python, Tkinter): shortest-route dispatch across 7 Lahore areas and 2 fire stations using Dijkstra and Prim's MST. GitHub: https://github.com/Immad-khan12/fire-truck-emergency-system - NetShare (PHP, MySQL): LAN file transfer app with 512 KB chunked transfers, speed measurement, CSRF protection, and audit logs. GitHub: https://github.com/Immad-khan12/Centralized-File-Sharing-System - Student Result Management System (Django) with role-based CRUD. GitHub: https://github.com/Immad-khan12/student-result-system - Quiz System (PHP, MySQL) with role-based CRUD. GitHub: https://github.com/Immad-khan12/quiz_system		
EDUCATION		
Bachelor of Science in Computer Science — Superior University, Lahore		2024 – 2028 (In Progress)
- CGPA: 3.46/4.00 Currently in 6th Semester Relevant Coursework: Computer Networks, Software Engineering - Active member of Computer Science Club and Tech Innovation Society; participates in coding challenges, hackathons, and workshops; mentors peers in HTML, CSS, SEO, and web development.		
CERTIFICATIONS & TRAINING		
AI Fluency: Framework & Foundations — Anthropic (2026) Credential ID: ant-123-abcimmad-fluency2026 Claude 101 — Anthropic, Claude Academy (2026) Credential ID: fe8c50946c37bde75663da34a7650a07 Digital Technology Internship (SAP Joule) — Coca-Cola Icecek, Lahore (Sep 2026) Full Stack Developer Internship Certificate — Teyzix Core (May 2026) Full Stack Python Developer, 6 Months — PNY Trainings (Nov 2025) Certificate ID: FSP-38-11-12802 Introduction to SQL — Sololearn x Superior University (Dec 2025) IEEE Future Tech 2026 Webinar — IEEE Lahore Section & Superior University (Apr 2026)		
LANGUAGES		
Urdu: Native English: Intermediate (Reading, Writing, Communication)
